
ASSIGNMENT 1- FORM VALIDATION

Validate the form of the Bootstrap assignment (enclosed to this assignment), checking the following restrictions:

- Name & surname must be between 2 and 15 characters long
- Address is required
- Email has to follow the pattern:
`/^\w+([\.-]?\w+)*@\w+([\.-]?\w+)*(\.\w{2,3})+$/`
- Password and Confirm password have to be identical. Add the common restrictions for passwords
- The registered user has to be older than 18 years old
- The user must agree to the terms of service
- Ask the user before resetting

Formatting:

- Show the error messages with separated messages. Modify the html as required. (Hint: <https://www.youtube.com/watch?v=ikR9DsGMUMc>)

Password	<input type="password" value="....."/>	Must be at least 8 chars
E-mail	<input type="text" value="dfsad@gmail.com"/>	

- Show the errors when the boxes lose focus.
- Clear the error message as soon as the content is valid.
